

PROFESSIONAL SUMMARY

Full Stack & DevOps Engineer with hands-on experience delivering and supporting production web applications across frontend, backend, REST APIs, relational databases, cloud infrastructure, CI/CD, deployment automation, and production operations. Experienced with React, Next.js, Node.js, Express, Elixir/Phoenix, AWS, Google Cloud Platform, Docker, GitHub Actions, Bitbucket Pipelines, Linux, Nginx, Firebase, MySQL, PostgreSQL, and Redis. Focused on reliable releases, performance optimization, incident resolution, and cross-functional delivery across the software development lifecycle.

CORE COMPETENCIES

Full-Stack Development | DevOps | CI/CD | Cloud Infrastructure | Deployment Automation | Production Support | Incident Resolution | Performance Optimization | REST API Development

EXPERIENCE

Full Stack Developer / DevOps

PawnHero Pawnshop | Feb 2024 - Present

- Provision and maintain AWS and Google Cloud infrastructure for production workloads, supporting compute, storage, and application services across the software delivery lifecycle.
- Build and maintain CI/CD pipelines with GitHub Actions and Bitbucket Pipelines, automating deployment workflows and improving release consistency.
- Deploy, monitor, and optimize applications across Firebase, AWS Amplify, EC2, Nginx, and PM2, supporting stable production operations.
- Resolve production incidents and performance bottlenecks through troubleshooting, tuning, and proactive maintenance to improve application reliability.

Full Stack Developer

PawnHero Pawnshop | May 2023 - Feb 2024

- Delivered full-stack enterprise features spanning React interfaces, backend services, REST APIs, and relational database workflows.
- Optimized database queries and application flows to improve responsiveness, stability, and production performance.
- Partnered with product and engineering teams to integrate frontend, backend, and data changes into cohesive production workflows.

Backend Developer

PawnHero Pawnshop | Nov 2022 - May 2023

- Developed and maintained REST APIs supporting core pawnshop workflows and production applications.
- Integrated backend services with relational databases, diagnosed defects, and tuned application performance to improve reliability.

TECHNICAL SKILLS

Frontend & Languages: JavaScript, TypeScript, React, Next.js, Tailwind CSS

Backend & APIs: Node.js, Express, Elixir, Phoenix, REST APIs

Data: MySQL, PostgreSQL, Firebase, Redis

Cloud & DevOps: AWS, Google Cloud Platform, Docker, GitHub Actions, Bitbucket Pipelines, Nginx, Linux, PM2

SELECTED PROJECTS

PawnHero Pawnshop operations platform supporting customers, transactions, referrals, reporting, and internal workflows.

Luxeln Luxury item marketplace and management platform covering catalog, authentication, loans, and inventory.

ADDITIONAL EXPERTISE

Software Development Lifecycle | Cloud Operations | Production Reliability | Database Optimization | Troubleshooting | Cross-Functional Collaboration | Application Monitoring
